

Pandemic Response Survey

Our district will be applying for the American Rescue Plan (ARP), ESSER III funding. This funding will help our district address the learning loss that took place over the last two school years as well as other impacts of the coronavirus pandemic on students.

In order to determine the best uses of these funds, we are consulting with our stakeholders (students, families, community members, residents, school teachers, school leaders, and other school staff). These survey results will help us gain insight into specific interests of our community, our employees, and the students we serve.

Throughout this survey you will see the term "Learning Loss". Learning Loss is a student's loss of academic skills or knowledge over a period of time due to school closures, quarantines, or students forced to learn online as opposed to face to face.

This survey is anonymous. Once completed, we will publish the results on our website.

Please allow 5 minutes to complete this survey before, Friday, July 30, 2021.

*** Required**

About You

1. 1. What is your role within our school district? *

Check all that apply

Check all that apply.

- Teacher
- Student
- Parent/Guardian
- School/District Administrator
- Other School Staff
- Community Member/Resident
- Business Owner
- Local Government
