

# The MidPoint

Titusville Middle School experienced a busy and productive second quarter. The main focus of our school community has been and will continue to be on the overall student experience and ensuring that we meet the needs of each student. There is nothing more important than the needs of each child and his or her family and we are continuing to find ways to meet those needs best and build a school that works for all students.

The highlight of the second quarter was the Mission Trip to Peak n Peak for a day of snow tubing. Students were able to earn this rewarding trip by achieving high grades, having excellent attendance, and displaying outstanding behavior throughout the quarter. The standards to earn a boarding pass for the mission trips will continue to rise throughout the year as we challenge our students to do their best. The next trip will be to Splash Lagoon at the end of the third Quarter. The standards have been shared with students and families so that everyone is aware of the expectations. We desire to take as many students as possible on this trip and know that students can achieve this goal.

TMS continues to provide many exciting opportunities both during and after the school day. There are many school clubs and sports that we encourage students to explore if they are not already participating. In addition, the Project Believe after-school program will continue throughout the year where engaging SEL activities take place as well as academic support.

Our goal continues to be to bridge the gap between school and home. Please contact the school to talk or set up an appointment to meet with any concerns you may have. We are excited about what we've accomplished so far this year and look forward to many wonderful opportunities to come for the remainder of the year.
